Environmental Health and Licences

No Environmental Health or Licence information has been found for this property.

Air Shed

This property does not sit within a controlled Air Shed.

Hazardous Activities and Industrial List (HAIL)

Tasman District Council monitors contaminated sites. This property has a record of the following contamination risks. If the site or any adjacent site has been used for industrial purposes in the past, we suggest you make further enquiries.

Valuation Assessment	LIM Statement
1938025754	This site was part of a commercial apple orchard and the soil was contaminated from historic pesticide sprays. In 2016, prior to subdivision for residential purposes, remediation of the soil was undertaken by mixing topsoil with subsoil. Soil analysis in this area of the subdivision meet the present requirements of the National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health for residential land use categories. The investigation report is on file (SCR595). The results show there is likely to be limited exposure to persistent pesticides from the historic orchard use.

Wetlands

Council has no record of wetlands on this property.

Pest Inspection History

The Tasman-Nelson region has a Regional Pest Management Strategy for the control of declared pest plants, animals and organisms. The responsibility for the control of pests lies with the land occupier or owner. No pests have been recorded on this property.

Significant Native Habitats

Council has been compiling biodiversity reports (also called Ecological Property Reports or reports on Significant Native Habitats) for the past eight years and where these exist they are available. However, no report has been lodged on this property.
