Tasman District Council monitors contaminated sites. This property has a record of the following contamination risks. If the site or any adjacent site has been used for industrial, horticultural or agricultural purposes in the past, we suggest you make further enquiries.

Valuation Assessment	LIM Statement
1960000131	This property is in the mapped area of historic orchard land. Soil testing for pesticide residues carried out in July & September 2007 indicated that some of the land required remediation before subdivision. After blending the top soil with lower profile soil, retesting showed it was suitable for residential land use. The soil testing Report is available on File RM070804 and are attached in SCR815.

Wetlands

Council has no record of wetlands on this property.

Pest Inspection History

The Tasman-Nelson region has a Regional Pest Management Strategy for the control of declared pest plants, animals and organisms. The responsibility for the control of pests lies with the land occupier or owner. No pests have been recorded on this property.

Significant Native Habitats

Council has been compiling biodiversity reports (also called Ecological Property Reports or reports on Significant Native Habitats) for the past eight years and where these exist they are available. However, no report has been lodged on this property.
